

Cocoon Fluorescent Cold Store Jacket

(-25°C) Code: **TH1236** ❄️❄️ Down to -25°C

S-2XL
sizes

Introducing the Cocoon Cold Store Jacket, specifically designed to protect workers in extreme cold environments, where temperatures can plummet down to -25°C. This top-of-the-line Cold Store jacket is a must-have for professionals working in industries such as cold storage, food processing, and outdoor construction.

- Fluorescent Cold Store Jacket uses EN371 polyester yellow
- Outer lightweight navy-blue nylon fabric with anti-fray, water and dirt repellent finish.
Insulation quilted in a 10cm box design to a royal blue polyester lining
- Generously fashioned to allow comfortable movement
- Double stitched seams for added strength
- Fluorescent yellow retro-reflective band around body, upper arm, legs and pocket edging
- Warm lined polar fleece collar with adjustable tag to allow snug fit
- Elasticated back and warm elasticated snug fitting cuffs
- Made in the UK
- EN342 : 2017 Protective clothing & EN ISO 15831
